Video Assistant Referee Project Update

At the FIFA U-20 World Cup Korea Republic 2017

The VAR project here in Korea Republic has been a great success. Game changing errors were avoided as expected and the training process as well as the implementation of the VARs and the requisite technology during the games have been refined.

Some of the key dynamics so far:

- 52 Games played
- 7 Game changing decisions corrected as a result of VAR intervention
- 15 Decisions reviewed by the VARs
- 12 Decisions changed based on VAR input
